- An international applicant who has completed 12 years of primary and secondary overseas (international) education or completed the equivalent of a Korean elementary, middle, and high school education program

Eligibility / Academic Standards

- Students must complete the entire curriculum according to the Korean academic year system (12 years). In cases of unavoidable discrepancies in study period due to differences in academic years, a difference of no more than one semester (6 months) will be recognized.
- Study periods resulting from overlapping programs during the same academic year (semester) will not be recognized.
- Academic programs or methods such as qualification examinations, home schooling, and cyber-study are NOT recognized.
- As a rule, the 12-year educational curriculum (elementary, middle, and high school study) follows the standard of the Korean school system.
 - The first through sixth years of an overseas curriculum are recognized as elementary school, the seventh through ninth as middle school, and tenth through twelfth (thirteenth) as high school [as per Article 98-1-9 of the Enforcement Decree for the Elementary and (Higher) Secondary Education Act]
- For those who have completed all elementary and (higher) secondary schooling in one country: the last three years are recognized as high school regardless of school system.
- For those who have completed their elementary and (higher) secondary school in two or more countries:

System	Recognition and Conditions	Note(s)
10 or fewer years	Not recognized	High school completion will be recognized if the applicant has completed a period of study at a university in the country in question corresponding to the deficit in curriculum years owing to the school system.
11 years	If the final three years of (higher) secondary school are completed in the country in question, it will be recognized as high school.	
12 years	(Applicants must have completed 11 or more years of elementary and (higher) secondary school in two or more countries.)	
13+ years	Tenth through twelfth or eleventh through thirteenth years will be recognized as high school if completed in the country in question.	

- The following cases are recognized as exceptions for admission eligibility:
 - When an applicant who has completed 12 years or more of elementary, middle, and high school education in two or more countries unavoidably experiences a deficit of one semester (six months) or less in his or her total enrollment period during the transfer process due to differences between the countries' school systems.
 - When an applicant experiences a deficit because he or she has skipped a grade academically due to laws regarding educational relationships in the country in question (skipping of grades is not recognized for transfers) or skipped a grade or graduated early from a 12-year elementary, middle, and high school curriculum as permitted by an early graduation system.
- Decisions regarding an applicant's eligibility will take into consideration academic year and semester systems in his or her country.
- In other cases, the school will judge the foreign school in comparison with the Korean school system according to the above criteria.
- Applicants with multiple citizenship according to Article 11-2 of the Nationality Act (legal status of multiple citizenship holders, etc.) will be treated as citizens of the Republic of Korea and will not be recognized as international applicants (Admission Type 1).
